Technical data sheet

General conditions of storage and use

Storage

The performance of the self-adhesive complex is guaranteed for 12 months observing the following storage criteria:

- _ storage in a temperate environment, at a temperature between + 5° C and + 35° C
- _ relative humidity between 45 and 60 %
- _ avoid exposure to heat sources
- _ avoid the direct exposure to sun rays and/or rain.

It is always advisable to stock the reels horizontally (or hung) because the weight of the reel, if placed vertically, may damage the face material in the area where the reel touches the surface.

Use

Application temperature	:	Min	+ 5 °C
		Max	+ 40 °C
Service temperature	:	Min	- 15 °C
		Max	+ 80 °C

Other characteristics and considerations can be determined following customer's requests.

The above specifications are the result of our actual knowledge and represent the mean value of the tests made. It is the final user's own responsibility to test, prior to use, the real conformity of the product to his particular and specific application.

Subject to modifications and technical improvements at any time, even without prior notice.
